

Backup your data the easy way with our **Secure Online Backup**

Automated

Safe

Simple to use

Switch now

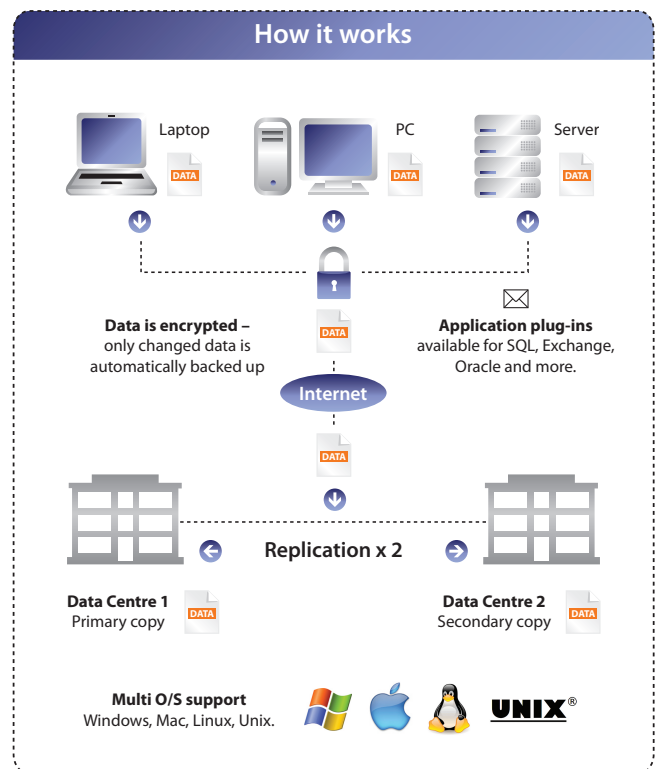

Secure Online Backup is the easiest and safest way to protect your business critical data ensuring maximum security and minimum fuss.

Data is automatically backed up, encrypted and stored off-site in one of our state-of-the-art, high security centres. For utmost protection and absolute peace of mind, files are replicated and stored in a second UK data centre.

Customers can recover their data with ease and benefit from 24 hour access to their files via the web.

We save you time, money and hassle by freeing up your staff from managing the company backup process – spelling the end of cumbersome in-house backup tapes, extensive manual intervention, errors and potential lost data.

Our service is perfectly scalable and developed with your needs in mind. It evolves with your organisation however small or large to offer a realistic long term solution.

Switch to Secure Online Backup today
and start enjoying these benefits:
